

Anirudh Kumar Subramanyam

(206) - 619- 1734 ask710@uw.edu A610 Mercer Court, 3925 Adams Lane, Seattle - 98105

Objective

Internship in Software Development or Data Analytics

Projects and Experience

EATOUT - DECEMBER 2016

An interactive web application that uses the Yelp API and shows average ratings of restaurants (using Yelp) of each state, and allowing users to navigate through different locations to search for restaurants corresponding to that location.

INTERNSHIP, CLOUDCHERRY - JULY 2016 - AUGUST 2016

Built understanding on sentiment analytics. Developed an automated program to provide and compare analytics of CloudCherry with other popular sentiment analytics tools. Used Java and JSON languages for the program

FRESCA - DECEMBER 2015

An application prototype produced with 3 other people. The application serves as a platform to track edibility of stored food and drinks, and provides a platform to share food to nearby communities to reduce food waste.

Link to prototype: <https://invis.io/DH6FDI464>

INTERN, LEVITUM - APRIL 2013 - MAY 2013

Studied social media marketing, and acquired knowledge in Python that was used in data collection and data processing.

KHULA AASMAN - 2013 - CURRENT

A student driven organization that strives to find the most effective ways to enhance learning in a classroom and inculcate a creative mindset in students at an early age. I was in-charge of running this in Bangalore, India.
